

The 2016 New Zealand Architecture Awards were announced on 11 November. The Awards recognise the best work by New Zealand architects, across all the types of projects they design.

The Institute of Architects congratulates the clients, architects and builders who together have produced the year's best buildings and structures, and thanks Resene for its support of the New Zealand Architecture Awards.

Education

A photograph of a coastal scene. In the foreground, there is a grassy hill with tall, dry grass. A modern building with large glass windows and a dark roof is situated on the hill. A small, dark, tower-like structure is visible on the roof. The building overlooks a calm body of water, likely the ocean. In the distance, a rocky coastline with a small lighthouse or tower is visible. The sky is overcast and grey.
